ACL Repair POST-OPERATIVE PHYSICAL THERAPY PROTOCOL

POST-OPERATIVE PHASE

*******Please include BFR with all time points of protocol*******

Weeks 0-2

Primary goals: Eliminate swelling; ROM – 0-90 when NWB, FWB in extension; Regain quad control

- WBAT locked in extension
- Brace locked in extension for sleep
- ROM: 0-90°
- Patella mobilization
- Sit to stand squats – 0-45°
- BAPs – PWB

Weeks 2-4

Primary goals: Increase ROM; Increase total leg strength; Normalize gait

- Discontinue brace (if possible)
- ROM as tolerated (minimum 0-110°)
- Emphasize patellar mobilization
- Stationary bike
- Step ups: anterior – 4 inches @ 2 weeks; 6 inches @ 3 weeks
- Balance board – Bilateral: frontal and sagittal planes
- Half squats
- BAPs – FWB
- Unilateral stance
- Leg press – Bilateral 0-90°

Weeks 4-6

Primary goals: Normal ADLs; Increase functional capacity; Increase strength

- ROM – WNL
- Treadmill walking (if gait normal)
- Stairmaster – ipsilateral rotation and straight
- Mini squats – bilateral

- Step ups – Anterior: 8 inches
- Step ups – Anteromedial: 8 inches
- Step downs – Anterior & medial: 4 inches, progress to 8 inches
- Unilateral squats
- Unilateral stance on trampoline
- Leg press – unilateral

Weeks 6-10

Primary goals: Increase functional leg strength; Normalize balance and proprioception

- 2# ball toss on trampoline – unilateral stance – increase dispersion with improved control
- Balance board – unilateral – sagittal & frontal
- Step downs – posterolateral @ 8 inches
- Lunges – anterior and lateral for distance and speed (not depth)
- Increase strengthening especially in frontal and transverse planes
- Stairmaster – contralateral rotation and straight
- Sliding board
- Slow jogging (straight ahead)

Weeks 10-12

Primary goals: Increase agility and speed of training; Normalize strength; Increase muscular endurance

- Sliding board side-side with rotation
- Lunges – anterolateral, anteromedial
- Bilateral hopping – low intensity/high volume
- Fitter side-side

Months 3-4

Primary goals: Gradual return to athletic activity; Discharge into home program

- Jumping
- Unilateral hopping
- Agility drills; running, cutting
